

Hidden Myths of Neurology to be explored

Prof. Shanmugam Rajendran*

Department of Internal Medicine and Diabetology, Dr. MGR Medical University, Chennai, India

Editorial note

Journal of Neurological Disorders (JND) is an International journal which provides and throws light on all types of Neurological sciences like Neuro physiology, Electro physiology, research on peripheral nerves and brain, various functional, physiological aspect of brain related to neuro chemistry and lot of clinical cases.

Journal of Neurological disorders provides lot of opportunities for young neurologists to submit their hard work. We are utilizing tracking type platform where tutors and reviewers can see their program of their article. We want our scientists / researchers / healthcare organizations to explore the brain, especially memory and intelligence even where lot to be throw... to all practicing neurologists.

Still lot of mysteries of the brain yet to be solved especially with dream, emotions, how is information collected and how to decode memory storage, emotion etc.

Still more wonders are there in the pineal gland called THIRD EYE seat of Soul play, a major role over brain function especially in a cyclic rhythm like menstrual cycle etc., Neuro chemistry and melatonin role to be looked out.

Meditation, Pranayama, Yoga and their relation to brain activity to be arisen in relation to neurology to avoid catastrophic feature in brain.

With all we would look forward to expand and welcome a wide range of research people to utilize this Journal of Neurological disorders as a step in plat form by sharing your experience so as to raise quality improvement and improve our relationship to a large extent your work truly enhance the reputation of the journal.

Finally I want to offer the gratitude to all the creators and analytical people and happy to welcome the commenting the Physicians, I extend my kind request to grand support to all. Only team work to raise the impact factor of the Journal and useful humanity.

Acknowledgement

I want to offer the gratitude to all the creators and analytical people and happy to welcome the commenting the Physicians, I extend my kind request to grand support to all.

Conflicts of Interest

The author declares that there is no conflict of interest.
