

Strategies & New Techniques for the Advanced Treatment in Graphene Technologies and Carbon Nanotubes

Alain L Fymat

Founding Chair, President/CEO and Professor, International Institute of Medicine & Science, USA, E-mail: alain.fymat@fiimmas.org

With the successful completion of "3rd International Conference and Expo on Graphene, Advanced 2D Materials & Semiconductors" during March 28, 29 2019 Orlando, USA, was organized with a focus on "A New Way to Atomic Assembly". It was a pronounced success with all eminent personalities from around the world and made their resplendent presence and addressed the gathering.

This conference was a path breaking opportunity for students too, which were given a chance to exhibit their paramount research work through Poster Presentations and discuss the same with the exalted scientists.

Abstracts submitted for [GRAPHENE 2019](#) have been published in the proceedings of the [GRAPHENE 2019](#) and having great feedback from the attendees, collaborators, media partners of [GRAPHENE 2019](#).

Keeping all the success story in records, now our [GRAPHENE 2020](#) is proud to announce "*4th International Conference and Expo on Graphene Technologies and Carbon Nanotubes during September 23-24, 2020 Milan, Italy.*"

*It will bring together world-class professors, researchers, scientists and students across the world to discuss the current developments that are taking place in the field of Graphene. Graphene & semiconductor are designed in such a way to provide diverse and current research that will provide an in-depth analysis in that field. The International Conference on Graphene and semiconductor is organized with a theme of "**Rising to new innovations in miracle materials**" with an objective to encourage young minds to overcome the challenges in the research field of Graphene materials by providing an opportunity to meet the experts.*

Target Audience:

- Graphene Chemistry Eminent Scientists.

- Biodegradable Graphene Professors.
- Physics Junior/Senior Research Fellows.
- Chemical Engineering Research Professors.
- Directors of Graphene Companies.
- Graphene and Material Science Engineers.
- Graphene, Material Science Associations and Societies.

ConferenceSeries.com organizing 2D Materials Conferences in 2019. We organize Semiconductors Meetings in the fields related to it.

[Graphene 2020](#) Conference includes the fields of research in Graphene, 2-D materials, production and forms of Graphene, Semiconductor materials, Semiconductor technologies, emerging areas of semiconductors, Mechanics and behaviour of Graphene and Semiconductors, Industrial Applications of Graphene and Semiconductor, Carbon Materials in Energy, Nanomaterial, Emerging trends in Graphene research, Graphite, nanotechnology in Graphene

The [Graphene 2020](#) is a flagship event strengthening bonds and fostering collaboration within the global oral health community. It's your time to grab the opportunity to join [Graphene 2020](#) in categories of Speakers, Workshops, Symposium, Exhibitor, Young researcher talk, Delegate, Poster, Business Meetings/Networking and extra benefits for our Event Sponsor.

In this fame, we look forward for your contribution and astonishing dedication to make our Dental World 2020 more successful.

Sincerely,

Ashley Osteen

Program Manager | ROBOTICS 2020
