## Abstract

Twenty-first century Theoretical Physics is undergoing a major "Paradigmatic-Shift" from the Old "Material-Causal" Paradigm of Relativity Theory (RT) & Quantum Mechanics (QM) to the New "G-d's Physics" Paradigm; This New 'G-d's Physics' (Computational Unified Field Theory, CUFT) Paradigm has been published in over thirty peer-reviewed articles and Books and has been shown capable of resolving the apparent "theoretical inconsistency" between RT & QM; It also discovering the existence of a singular higher-ordered "Universal Computational/Consciousness Principle" (UCP) that simultaneously computes every exhaustive spatial pixel in the universe at the incredible rate of " $c^2/h = 1.36\text{-}50 \text{ sec}(!)$ " giving rise to an incredibly rapid series of "Universal Frames" (UF's) comprising the entire physical universe (which "dissolves" back into the singularity of the UCP 'in-between' any two consecutive UF's frames!) This New 'G-d's Physics' Paradigm is also shown to challenge and negate key RT & QM 'Material-Causal' assumptions such as: the 'Big-Bang; Model, Einstein's Equations and the "collapse" of the probability wave function. This article evinces that the New 'G-d's Physics' Paradigm similarly negates Darwin's Natural Selection Principle (DNSP) dual 'Material-Causal' assumptions due to the simultaneity of the UCP's computation of all exhaustive spatial pixels for each consecutive UF's frame! Instead, the New 'G-d's Physics' Paradigm points at the UCP's singular, higher-ordered characteristics of the "Ten Laws of Hierarchical Manifestation" including: "Free-Will", "Good-Will", the "Dynamic-Equilibrium" Moral Principle and its selection of one of multiple "possible future/s" based on the Moral Choice/s of each Individual Human Consciousness (at any point in time); and the UCP's "Reversed Time Goal Hypothesis" which completely integrates between all Physical, Biological and Moral developments-pointing at the UCP's Ultimate "Geula" (e.g., Physical, Moral & Spiritual "Perfected State") Goal of the universe, towards which this singular "Universal Consciousness Reality" continuously advances the entire physical universe and Humanity!

**Keywords:** Darwin's natural selection principle • Spiritual perfected state • Hierarchical manifestation • Einstein's equations • Quantum mechanics

## Introduction

### New 'G-d's physics' twenty-first century physics paradigm

Twenty-first Century Theoretical Physics has discovered and accepted a New 'G-d's Physics' Paradigm (e.g., formerly also called "the Computational Unified Field Theory", CUFT, see numerous peer-reviewed published scientific articles); This New 'G-d's Physics' Paradigm replaces the Old (20th Century Physics)' 'Material-Causal' Paradigm underlying both Relativity Theory (RT) and Quantum Mechanics (QM); It's been shown capable of resolving the apparent "theoretical inconsistency" that seemed to exist between RT & QM, offer an alternative explanation for key unresolved empirical phenomenon such as the purely hypothetical "dark-matter" and "dark-energy" concepts, e.g., which were supposed to account for up to 95% of all the "mass" and "energy" in the universe – but which nevertheless could not be accounted for (or detected) empirically!? Indeed, 21st century Theoretical Physics stands at an "equivalent juncture" as did pre-Einstein's 1905 & 1915 Theoretical Physics, in a state in which the two primary "pillars" of Physics seem to "contradict" each other: e.g., based on RT's insistence upon a strict "material-causal" constraint imposed upon the transmission of any light signal across 'Space-Time' and determination of "positivistic definite" physical values for any relativistic 'Space-Time', 'energy-mass' phenomenon; as opposed to QM's insistence upon the possibility of "quantum-entanglement", indicating that it is possible for two such "entangled-particles" separated by a distance greater than that which could be "covered" by the Speed of Light being able to apparently "affect"

each other's measurements (probabilistic) complimentary values, as well as its only "probabilistic" mathematical values attributed to any 'space-energy' or 'mass-time' complimentary values!? Fortunately, a fundamental "Paradigmatic-Shift" from the Old 'Material-Causal' Paradigm has been signified by the New 'G-d's Physics' Paradigm-which was shown capable of resolving this basic apparent "theoretical inconsistency" between RT & QM; The New 'G-d's Physics' Paradigm is based upon the discovery of a singular higher-ordered Universal Computational/Consciousness Principle (UCP) which simultaneously computes all exhaustive spatial pixels in the physical universe at the incredible rate of " $c^2/h = 1.36\text{-}50 \text{ sec}(!)$ " giving rise to an extremely rapid series of "Universal Frames" (UF's) comprising the entire physical universe at every such minimal "time-point"... Moreover, according to this New 'G-d's Physics' Paradigm, "in-between" any two consecutive UF's frames, the entire physical universe "dissolves" back into the singularity of the UCP, e.g., so that there cannot be any "transference" of any material "entity" or "effect" across any two consecutive UF's frames! [1].

In much the same manner, the New 'G-d's Physics' (CUFT) Paradigm indicates that the basic 'Material-Causal' assumption underlying Quantum Mechanics (QM) wherein it is assumed that it is the direct physical interaction between a given subatomic "probe" element and a corresponding subatomic "target's probability wave function" – which "causes" the "collapse" of the target's 'probability wave function' into a singular (complimentary) 'space-energy' or 'time-mass' value – is invalid!? Thus, the New 'G-d's Physics' Paradigm was able to integrate the key elements of RT & QM within a singular higher-ordered "Universal Computational Formula" (which also possesses two Relativistic and Quantum Formats emphasizing the embedding of those key corresponding Relativistic and Quantum features,

previously published).

Hence, the New 'G-d's Physics' Paradigm discovered an exhaustive new theoretical framework which indeed completely integrates the basic features of RT & QM within the singular higher-ordered UCP's Universal Computational Formula (as well as completely integrates the four basic features of 'space', 'energy', 'mass' and 'time' as secondary computational properties of the UCP's singular higher-ordered simultaneous computation of all exhaustive spatial pixels in the universe for each minimal time-point " $c^2/h$ " = 1.36-50 sec(!)

### The New G-d's Physics Negation of Darwin's "Natural Selection Principle" (DNSP)!

According to the New 'G-d's Physics' Paradigm, the entire physical universe is being created- dissolved-re-created-and evolved- many billions of times each second simultaneously by the singular higher-ordered Universal Computational/Consciousness Principle (UCP), as an extremely rapid series of Universal Frames (UF's)! Moreover, according to this New 'G-d's Physics' (CUFT) Paradigm, the entire physical universe completely "dissolves" back into the singularity of the UCP "in-between" any two consecutive UF's frames (including all of its exhaustive spatial pixels)! This implies that there cannot exist any direct physical interaction between any two (or more) exhaustive spatial pixels existing either in the same- or different- UF's frames; Furthermore, given the complete "dissolution" of the entire physical universe "in-between" any two consecutive UF's frames, there cannot exist any "transference" of any "physical effect" or (any) "material entity/ies" across any two consecutive UF's frames! In this manner, the New 'G-d's Physics' Paradigm was shown to challenge and (in fact) negate all of the major assumptions of the Old 'Material-Causal' Paradigm (underlying both RT & QM): It was shown to negate the "Big-Bang" Model, assuming that the universe was created as "caused" by an initial "nuclear explosion", since there could not have been any direct physical interaction between any two (or more) exhaustive spatial pixels either in the "first", "second", "third", etc. UF's frames! Likewise, the New 'G-d's Physics' Paradigm was shown to negate the existence of the purely hypothetical concepts of "dark-matter" or "dark-energy" which are assumed to "cause" the accelerated "expulsion" (or expansion) of the physical universe, once again because there cannot exist any direct physical interactions between any two (or more) exhaustive spatial pixels (e.g., at- or between-any two consecutive UF's frames)! Similarly, it was shown to negate the basic "Material-Causal" assumption underlying RT's Einstein's Equations, e.g., assuming that certain "massive-objects" "cause" a "curvature" of 'Space-Time', and conversely that it is this 'curved Space-Time' which "causes" (or determines) the travelling-pathways of those and other less-massive objects... [3].

This is because, once again, based on the simultaneity of the UCP computation of all exhaustive spatial pixels in the universe for each consecutive UF's frame (and the complete "dissolution" of the entire physical universe 'in-between' any two consecutive UF's frames) we must reach the inevitable conclusion that there cannot exist any such "direct physical interaction" between any hypothetical "cosmic-electromagnetic rays" and any given organism's "genetic information" which then "Causes" a "mutation" in that particular 'genetic-information' (nor can there exist any "physical" or "biological effect" transferring any "changes" in the assumed 'genetic information' of a particular organism from one UF's frame/s to another!);

All that truly exists is, as illustrated by the fine "Cinematic-Film Metaphor", is a particular "arrangement" of the series of UF's frames by the Universal Computational/Consciousness Principle (UCP) in such a manner which gives us the perceived effect of a given "Biological Evolution"! Just as we've seen through this 'Cinematic-Film Metaphor, that what seems to be a "cause" and "effect" direct physical relationship between the "impact" of the "Mercury-Ball" and the "shattering" of the "Glass-Jar", but in truth only arises from the "arrangement" of the Cinematic-Film Frames in such a manner in which the spatial-proximity of those two 'Mercury-Ball' and 'Glass-Jar' are presented in ever closer proximity in each consecutive

frame-leasing up to the final frame which presents the "shattered" 'Glass-Jar' with the adjacent 'Mercury-Ball' (and the 'spilled-off' water on the ground...) [4-7]. So, it is suggested that the apparent "Biological-Evolution" stipulated by DNSP also arises merely from the "arrangement" of the series of UF's frames in such a manner that seems to associate between certain changes appearing perhaps in a given Environment ('Environmental Factors') and equivalent changes in a given organism, which give us the "impression" of a direct "cause" and "effect" physical relationship/s between them!? But, as we've already seen that no such direct physical interactions are possible between any two (or more) exhaustive spatial pixels existing either in the same- or different- Universal Frames (UF's), and moreover the entire physical universe "dissolves" 'in-between' any two consecutive UF's frames, therefore the New 'G-d's Physics' Paradigm explains the origination-"dissolution"-re-creation and evolution of each specific exhaustive spatial pixel throughout the entire physical universe-only based on the singular higher-ordered UCP's operation and characteristics, as explained and delineated previously [8].

### G-d's Physics: UCP's Complete Unification of "Physical", "Biological" and Moral Developments

In fact, in order to fully understand (and appreciate) 'G-d's Physics' New Paradigm's exhaustive theoretical framework-which completely integrates all "Physical", Biological" & "Moral" developments, we have to reexamine some of the basic tenets and theoretical postulates of the CUFT's including its complete unification of 'space', 'time', energy' and 'mass'-within a single "Universal Computational Formula" (UCF), e.g., as secondary computational features of the singular higher-ordered UCP's operation; according to 'G-d's Physics' singular 'Universal Computational Formula' (UCF) (and associated theoretical postulates) the UCP possesses three "Computational Dimensions" (e.g., "Framework", "Consistency" and "Locus")-two out of which ('Framework' and 'Consistency') compute together the four basic physical features of 'space' and 'energy', 'mass' and 'time', based on the UCP's computation for each exhaustive spatial pixel in the universe (simultaneously) of the degree of "change" ('consistent') or "lack of change" ('inconsistent') pertaining to each spatial-pixel's (entire) 'frame' or focusing of the 'object's characteristics across a given series of Universal Frames (UF's): Thus, the UCP's computation of 'space' and 'energy' stem from the UCP's computation of 'frame'- 'consistent' or 'inconsistent' measures across any given series of UF's frames, whereas the UCP's computation of 'time' and 'mass' represent the degree of 'object'-'consistent' or 'inconsistent' measures across the same UF's series; Indeed, for the first time in Physics history the four basic physical dimensions of 'space', 'energy', 'mass' and 'time' are completely unified as integrative computational aspects of the singular higher-ordered UCP's simultaneous computation of all exhaustive spatial pixels in the universe comprising an extremely rapid (e.g., " $c^2/h$ " = 1.36-50 sec!) series of Universal Frames (UF's) depicting the whole physical universe! Thus far, only 'space' and 'time' (Space-Time), or 'energy' and 'mass' (" $E = Mc^2$ ") have been united, and likewise the "curvature" of "Space-Time" by Massive objects (as described in General Relativity's "Einstein's Equations"), and conversely the determination of these (and other) 'Massive' (and less massive) objects is assumed to be determined (or "Caused") by this 'curvature of Space-Time'; But this New 'G-d's Physics' (CUFT) Paradigm signifies the first complete unification of these four basic physical features of 'space', 'energy', 'mass' and 'time' as integral secondary computational properties of the singular higher-ordered UCP simultaneous computation of all exhaustive spatial pixels in the universe (for each consecutive UF's frame/s)! Moreover, due to another key "Computational Invariance Principle" postulate of the CUFT ('G-d's Physics') which asserts that only the "Universal Computational Principle" (UCP) remains "computationally invariant" (i.e., constant)-both "during" its computation of all exhaustive spatial pixels' four basic physical features (of 'space' and 'energy', 'mass' and 'time') comprising each consecutive UF's frame/s, as well "in-between" any two consecutive UF's frame/s (in which the entire universe "dissolves" back into the singularity of the UCP); whereas the entire physical universe (and each of its constituting exhaustive

spatial pixels' four basic physical features) may only be considered as "computationally-variant", since it only exists "during" each consecutive UF's frame/s (as solely computed by the UCP) but "dissolves" (back into the UCP) "in-between" any two consecutive UF's frame/s-therefore deemed only as a "transient", "phenomenal" manifestation of the singular UCP; hence, this "Computational Invariance" Principle regards the whole entire physical universe as only a "transient", "phenomenal" manifestation of the singular existence of the UCP! This additional "Computational Invariance Principle" and its associated "Universal Consciousness Reality" theoretical postulate is important because it transforms our basic understanding (and appreciation) of the "independent existence" of the physical universe as a "Material-Causal" entity-governed by mere physical interactions (e.g, such as postulated by the abovementioned General Relativity Theory's curvature of 'Space-Time' by massive objects etc.) [9-11];

More generally, the UCP's other higher Laws of Hierarchical Manifestation include the UCP's innate tendency of 'Goodwill'-an intrinsic propensity to bestow Life, Happiness, Goodness and Giving; when coupled with the UCP's "Free-Will" Law of Hierarchical Manifestation – which essentially states that since only the singular UCP (or UCR) exists continuously and "computationally invariantly" both "during" its simultaneous computation of all exhaustive spatial pixels in the universe comprising the series of consecutive UF's frames, and also solely existing "in-between" any two consecutive UF's frame, therefore that this singular higher-ordered UCP is not "constrained" or "limited" by any 'Material-Causal' laws etc. but is rather completely "free" to create- sustain and evolve every exhaustive spatial pixel in the universe according to its "Free-Will", and "Good-Will" propensities... Indeed, the UCP (or UCR) "Reversed-Time" Goal Hypothesis anchors the whole evolution of the entire physical universe in the UCP's ultimate Goal of "Geula", e.g., Physical, Moral and Spiritual Perfection! According to this "Reversed Time Goal Hypothesis" the UCP "arranges" and "drives" the whole evolution of the universe towards an Ultimate State of 'Geula'-a "Perfected State" of the world (and universe) in which there is complete Harmony, Peace, an Awareness of the Singular Existence of the UCR and a sense of Gratitude towards It; Towards that end, the singular higher-ordered UCR produces the whole universe-producing, sustaining and evolving the entire physical universe enabling the appearance of Life on our small planet; and in particular, "driving" the UF's depiction of "inanimate" matter, then "animate" Life: from "plants" through "animals" to "Human-Beings"-and towards the appearance of an "expanded" form of Consciousness (for specific Individual Human Beings whose own Individual Human Consciousness is "not separate" from the functioning of the singular Universal Consciousness, e.g., at the "waking state" of Consciousness); and ultimately towards the Physically, Morally and Spiritually Perfected State of "Geula" in which all Human Beings will realize their "inseparability" from that Singular Higher-Ordered Universal Consciousness Reality, a State in which also "Death" will be "Abolished" (e.g., with one "empirical" manifestation of such "Death Abolishment" possibility based on a "time-reversal" application of the basic principles of the New 'G-d's Physics' Paradigm, as described previously)... In that sense we see that there is no real "separation" between the UCP's origination and development of the entire physical universe-e.g., including its accelerated expansion of the universe as brought about by its accelerated addition of the number of exhaustive spatial pixels to each consecutive UF's frame/s (rather than as "explained" by the purely hypothetical "non-existent" concepts of "dark-matter" and "dark-energy"), and its evolution of all inanimate and animate Biological Forms, all being driven by the singular higher-ordered UCP towards Its Ultimate Goal of a Perfected "Geula" State! [6].

We therefore reach an entirely new understanding of the whole physical universe-whose continuous origination- "dissolution", sustenance and evolution- is not "caused" by any direct physical interactions between any relativistic 'Massive objects' and their assumed "curvature of Space-Time", nor by the "collapse" of the subatomic target's "probability wave function" as "caused" by its direct physical interaction with the corresponding subatomic "probe" element; A New singular, higher-ordered UCR directed 'Geula' Perfected State (e.g., Physically, Morally and Spiritually) towards which the UCR continuously creates- dissolves- re-creates and evolves

each and every exhaustive spatial pixel comprising the entire physical universe for each consecutive UF's frame! We can see that this singular higher-ordered UCR directs the entire evolution of the physical universe to manifest ever more Conscious forms-from "inanimate" matter: the creation of all suns, planets, galaxies-leading up to the special "Life-enabling" conditions manifest in our Planet, as well as the accelerated expansion of the physical universe (based on the abovementioned UCR's accelerated addition of the number of exhaustive spatial pixels comprising the whole physical universe with each consecutive UF's frame), which allows Science and Humanity to notice and be aware of the operation and singularity of this UCR!; and towards the Ultimate "Perfected Geula" State through animate: plants, animals, Humans-and up to the manifestation of Humanity's (and the universe's!) Ultimate Perfected (Physical, Moral and Spiritual) State! Hence, in stark contrast to DNSP and the Old 'Material-Causal' Paradigm's depiction of the origination of the universe as "caused" by a "random nuclear Big-Bang explosion", is governed by mere direct physical interactions between relativistic 'Massive-objects' and their 'curvature of Space-Time' (which in turn determines the "travelling pathways" of these and other non-massive' objects) or direct physical interactions between random subatomic probe elements and their corresponding subatomic 'target's probability wave function; and the further expansion of the physical universe based on (purely hypothetical) "dark-matter", "dark-energy" concepts-leading to an inevitable eventual "death" or "dissipation" of all suns, galaxies, Life etc., based on the "Second Law of Thermodynamics" which states that the level of Entropy must increase with time... Moreover according to DNSP dual level 'Material-Causal' Model, the evolution of Biological forms of life is also assumed to be brought about by "random", "purposeless" direct physical interactions between certain "cosmic rays" and particular organisms' "genetic code" which "causes" random "genetic-mutations"-that in turn transform this particular "genetically mutated" organism to "survive better" in its direct physical interaction with a given set of 'Environmental Factors' (then its other "peer-organisms"), thereby allowing it to evolve into a new species etc. In contrast, the New 'G-d's Physics' Paradigm advocates an entirely new (and exciting) theoretical perspective and understanding of the origination-sustenance ("dissolution") and evolution of the entire physical universe – as being constantly and continuously directed towards the UCR's (or UCP's) "Ultimate Goal" of manifesting ever more Conscious, Moral and Harmonious forms, e.g., from the inanimate material entities through animate: animals, plants and Human-Beings-and up to Humanity's full manifestation of a "Perfected Geula State" in which the Presence and "Inseparability" of every exhaustive spatial pixel in the universe, every rock, plant, animal and human-being from the constant and continuous creation-dissolution- re-creation and evolution of every such exhaustive spatial pixel from the UCP's singular existence; in which this "Geula State" manifests as a full appreciation of the Oneness of all Humanity and all Creation, and consequent Perfected Moral and Spiritual State of Harmony, Awareness of the UCP's singular higher-ordered Existence and associated deep sense of Gratitude and Appreciation... We therefore realize that instead of the universe being created "by chance" and its evolution being "random", e.g., including the "Random Genetic Mutations" which supposedly created Life and evolves it (as explained by the Old 'Material-Causal' Paradigm), the creation-sustenance- "dissolution" and continuous "evolution" of the entire physical universe may only be seen as a "phenomenal", "transient" manifestation of the singular "computationally-invariant" 'Universal Consciousness Reality' (UCR)-which exists both "during" its sole (simultaneous) computation of all exhaustive spatial pixels' (four basic physical features of 'space', 'time', 'energy' and 'mas') comprising each consecutive UF's frame, and also exists singularly "in-between" any two consecutive UF's frames! Indeed, due to the singular existence of this UCR, the complete dependency of the entire physical universe-including all Biological forms solely upon the continuous operation of this singular, higher-ordered UCR we realized that the whole creation, sustenance ("dissolution") and evolution of the entire physical universe and all of its Biological Forms is solely directed by the UCP towards a manifestation of a Perfected "Geula" State-Physically, Morally and Spiritually! [12].
