The “**World Congress on Environmental Toxicology and Health**” hosted by conference series with the theme, “**Multidisciplinary Approaches to Solve Environmental Toxicity Risks**” was successfully executed during July 11-12, 2018 Sydney, Australia. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations.

The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Toxicology, Public Health and Community Health care, Climate Change, Industrial Health & Toxicology.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Risk assessment and bioavailability of mercury from dust in gold mining areas in Johannesburg, South Africa.
- (Ewa Cukrowska) Professor of Environmental Analytical Chemistry at the University of the Witwatersrand, South Africa.
- Nanomaterial carcinogenicity: Role of cancer stem cells and tumor microenvironment.
- (Yon Rojanasakul) Professor and Leader of the Sara and James Allen Comprehensive Lung Cancer Program at West Virginia University Cancer Institute, USA.

Conference series is organizing “**International Conference on Environmental Toxicology & Public Health**” which is going to be held on December 02-03, 2020 Auckland, New Zealand. The conference is going to cover the entire field related to Environmental Toxicology, Environment & Health Safety, Environmental Risk & Assessment Management, Environmental Agents, Health Care Management latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Environment congress 2020 are as follows:

Environmental Toxicology, Pollution, Environmental Health & Safety, Human Impact On the Environment, Environmental Risk & Assessment Management, Environmental Agents, Climate change & Health, Health Care Management, Industrial Health and Toxicology, Global Warming, **Agricultural Toxicology**, Green Chemistry, Regulatory Toxicology, Public Health Nursing, Public Health and Community Healthcare.
