Telemedicine Congress 2020 mainly focuses on Telemedicine, eHealth & Health Informatics, It is now being extensively used in medical and [healthcare](#) sectors; Hence telemedicine and medical informatics are expected to grow at a high rate in coming years, which is expected to boost the growth of the medical care technology. In [Telemedicine](#), one transfers the expertise, not the patient. The term telehealth can refer to clinical and [non-clinical services](#) such as medical education and clinical research and telemedicine refer only to the provision of medical services. Professional Level

This Young Scientist Award is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown a great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of Research and Innovations. The core of our Young Research Forum – Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform. We at Telemedicine Congress 2020 provides the best networking experience to the participant for their overall professional growth and to promote the collaborative research.

About Conference Series:
