Psychologists Meet 2021 will be a gathering of psychological researchers, scholars, academicians, practitioners, delegates, students and business personals to present all the updates in psychiatry. Join with us to learn, share and listen to the experts about their recent outcomes and their future expectation.

“Exploring the Possibilities to Treat Psychiatric & Psychological Disorders” is the theme of this year’s conference. Psychologists Meet 2021 is a premier venue, dedicated to psychiatrists, psychologists, mental health trainers & experts, researchers, scientists, academicians, advocates, patients, clinicians, nurses, midwife, caregivers, speech therapist, audiology-language experts, and other health care people & professionals to meet likeminded experts, learn, present & collaboration with the peers and stay in advance in the diagnosis & treatment of psychiatric & psychological disorders.

We have developed a program with your interests in mind. We have not solely multiplied the quantity of opportunities for you to network with colleagues from across the globe however conjointly introduced a lot of targeted sessions which will feature cutting edge displays, special panel discussions, and livelier interaction with business leaders and specialists.

### Young Scientist Awards Psychologists Meet 2021:

The YRFs provide prizes to two graduate students—generally one Master’s candidate and one Ph.D candidate. The core mission of Young Scientist Award is to advance scientific knowledge and to positively impact the major global challenges of society with Science-based solutions. The Psychologists Meet Conference Committee is organized to recognize the prestigious award given to talented young researchers, scientists, young professors, post-graduate students, post-doctoral fellows, trainees and junior faculty for their excellent contributions to the conference theme.

The Young Scientist Awards make every effort to provide early career scientists with a good professional development platform by visiting experts to exchange perspectives on all facets of pathology and share theme.

The Young Researcher Awards are part of an international program to support early-career researchers to help young researchers in their efforts to progress scientific frontiers across a world range of disciplines. The Young Researcher Awards is established to honor outstanding young scientists and researchers around the world who have made substantial contributions to their research projects. The award is given to a scientific paper, written by a young scholar, who is regarded as the highest quality by a panel of judges. The winning author will be invited to the Conference to receive the award and present the article. The awarding paper can be listed in the Conference for publication.

### Participation:

Participation is accessible to anyone who sees him / herself as a 'new' researcher, wishes to share research ideas and (preliminary or mature) findings with their peers and seeks an opportunity to be motivated and influenced by research paths. Ph.D. applicants, young researchers at any point of their work (including undergraduate students), young researchers on the paths of industry research are all most welcome to take part. In addition, we specifically invite Ph.D. candidates and young researchers presenting their work in the main participate in this Psychologists Meet 2020.
