[Hypertension Conference Committee](#) is glad to announce “[8th International Conference on Hypertension and Healthcare](#)” during August 10-11, 2020 Dubai, UAE by focus on the theme: “Exploring the new horizons to cure Hypertension & Cardiac diseases”. Prestigious Award for Young Research’s at Hypertension Meeting 2020- Discovering New Exploration in Hypertension field.

As per a statement of World Health Organization (WHO), Hypertension is one of the silent killers in 21st century and is one of the biggest global public health concerns. Hypertension is major contributors of cardiac complications, stroke, heart diseases, kidney failure, blindness, including premature death and disabilities. Hypertension is curable as well as treatable for which there is a need of involvement from individual entities, government and private sectors, health workers, civil societies and moreover individual awareness is highly recommended.

As per the estimation of WHO, globally more than 1.13 billion of people are affected with Hypertension among which less than 1 in each 5 is under control. Unhealthy diets, lack of physical activities, consumption of alcohol & tobacco are the main contributing factors of Hypertension. To reduce the prevalence by 25% by 2025, WHO along with United States Centre for Disease Control and Prevention launched Global heart Initiative in 2016.

Hypertension is an epidemic in the UAE. The Hypertension level in the UAE is one among the highest in the world. It is one of the leading health concerns in the country affecting people of all ages. The Hypertension levels in the GCC countries including the UAE are among the highest in the world. It is reported that girls tend to be more obese than boys in the UAE. The researchers warn that hypertension level among children is alarmingly high in the country and it is growing. The childhood hypertension level in the UAE is much higher than that found in the western countries.
