

2020 Awards of geotechnical engineering & Geographic Information System Conference

Mustafa Khamis

Professor, Department of Biology, Chemistry and Environmental Sciences, College of Arts and Sciences, American University of Sharjah, United Arab Emirates. E-mail: mkhamis@aus.edu

The organising committee members of “International Congress on Geotechnical Engineering and Geographic Information System” have finally revealed the theme for this year’s “Geophysics 2020” and it is going to be **Understanding the Past, Discovering the Future**. conference Series and the organising committee of Geophysics 2020 acknowledges the efforts and contribution of scholars, researchers, academicians, and scientists in the field of Geophysics 2020 has decided to introduce various achievement awards for all the participants. Geophysics 2020 conference will offer various awards to outstanding researchers, scientists, exceptional graduates or early academicians who have a notable contribution to the field and possess keen interest towards the conference theme. The awards strive in providing a strong professional development opportunity for all researchers at different levels of their careers. Moreover our conferences will provide a much needed time and space for all to interact with colleagues from different parts of the world and to create long lasting networks and relations.

Below are some of the special awards that are being offered at Geophysics 2020.

Expert Level (Scientific Service Achievement Award)

The award is meant to the experts who have made exceptional contribution in the field of Geophysics Research and Geophysics 2020 Research. This award is the most prestigious award of the conference and that is why it is also known as Scientific Service Achievement Award. One who is having at least 20+ years of experience (public /private sector) in relevant subject field is eligible for achieving this award. The recipient of the award must have a keen interest in opening the new horizons and researching the latest developments in the relevant field. Deserving nominees can be awarded online as well.

Professional Level (The Research Contribution Award)

The distinguished “**Research Contribution Award**” at **Professional Level** will be awarded by the Organizing Committee of GEOPHYSICS-CS-2020 to the participants of “International Congress on Geotechnical Engineering and Geographic Information System. The award will be presented for outstanding scientific achievement or service to the discipline of Experimental Physics, Quantum Field Theory and Nuclear Engineering. The eligibility criteria for achieving this award is that one should have research knowledge minimum

of 10+ **years of experience** in the relative field of Experimental Physics.

Scholar Level (The Upcoming Researcher award)

International Congress on Geotechnical Engineering and Geographic Information System offers Scholar Level Award for the upcoming scientists, researchers and experts having 10+ years research experience in the field of Experimental Physics, Quantum Field Theory and Nuclear Engineering

Conference would like to provide best platform to expand your network by sharing your research knowledge at stage. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions.

Deserving nominees can be awarded online as well.

Women Scientist (The Women of Science Award)

GEOPHYSICS-CS-2020 provides a unique platform with “**Women of Science Award**” for women scientists for presenting latest research projects with an in-depth analysis. GEOPHYSICS-CS-2020 invites Women scholars and scientists from Experimental Physics, Quantum Field Theory and Nuclear Engineering fields. The committee encourages women scientist’s through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. The eligibility criteria for achieving this award is that one should have research knowledge minimum of 10+ **years of experience** in the relative field of Experimental Physics.

Outstanding speaker and Best Keynote Speaker in GEOPHYSICS-CS-2020

The award “**Outstanding speaker**” is offered by the GEOPHYSICS-CS-2020 congress to the individual who delivers the projects, strategies, and schemes that have been implemented to improve long-term excellence in Experimental Physics, Quantum Field Theory and Nuclear Engineering. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field of Experimental Physics.

The award “**Best Keynote Speaker**” ” is offered by the GEOPHYSICS-CS-2020 congress to the individual who delivers

the projects, strategies, and schemes that have been implemented to improve long-term excellence in Experimental Physics, Quantum Field Theory and Nuclear Engineering. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field of Experimental Physics.

Best Poster Presentation in GEOPHYSICS-CS-2020

GEOPHYSICS-CS-2020 comprises many poster presentations and the speakers designated as poster judges will nominate one poster presenter for the Best Poster Presentation Award. Conference Series aims at to provide a platform for all the promising graduates, scientists and budding researchers to

present their research work, views and different aspects of the theme Advancement And Innovations In The Field Of Geophysics. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field of Geophysics. Deserving nominees can be awarded online as well.

Outstanding Masters/Ph.D./Post Doctorate thesis work Presentation in GEOPHYSICS-CS-2020

The award is designated for the Masters/Ph.D./ Post Doctorate students who can present their thesis and projects or have executed the same for the long term excellence in the field of Geophysics. Deserving nominees can be awarded online as well.
