

ADVANCES IN CLINICAL RESEARCH & CLINICAL TRIALS 2020

Raymond Chong

Department of Interdisciplinary Health Sciences, Augusta, USA, E-mail: rchong@augusta.edu

CLINICAL RESEARCH & CLINICAL TRIALS 2020 is in collaboration with the Clinical Trial Unit (CTU). This interactive virtual event focuses on a case study for contract design, pharmacovigilance, drug discovery, clinical drug development and observational studies scheduled during November 05-06, 2020.

This webinar is open to all Clinicians, Doctors, Nurses Researchers, Ph.D. students and Pharmaceutical Industries, Professors, Scholars and Health Volunteers.

The event mainly encourages the adherent clinical trials and clinical research in COVID-19. Members are encouraged to submit their research work and the industry expert work from the various organization would value learning more about improving the drug discovery.

Webinar Date: November 05-06, 2020

Time: 9:00-17:00 BST (Login 10 minutes prior to webinar)
