

2020 Conference Announcement

Clinical Pathology Meet 2020 scheduled during October 30-31, 2020 Dubai, UAE

Yavuz Selim Silay

University of Ankara, Turkey, E-mail: silay543@hotmail.com

[Clinical pathology](#) is the branch of Science with the study Pathology & Microbiology. It is a health-related profession that links medical sciences with chemical sciences and aims to ensure the secure and productive use of pharmaceutical drugs. [Pharmacists](#) are the specialist on the drug therapy and are the primary health professionals who enhance the use of medication for the benefit of the patients. Pharmaceutical Sciences is a dynamic and interdisciplinary field that aims to integrate basic principles of Inorganic and organic chemistry, engineering, biochemistry, and biology to understand the optimized drug delivery to the body and translate this integrated understanding into advanced and innovative therapies against human diseases and disorders. Clinical pathology is a medical specialty that is concerned with the diagnosis of disease based on the laboratory analysis of bodily fluids, such as blood, urine, and tissue homogenates or extracts using the tools of chemistry, microbiology, hematology and molecular pathology. Clinical pathology supports the diagnosis of disease using laboratory testing of blood and other bodily fluids, tissues, and microscopic evaluation of individual cells. Our board-certified veterinary clinical pathologists and technologists provide laboratory results in a timely, efficient and thoughtful manner; supporting research, clinicians, referring veterinarians, and students in the diagnosis and treatment of many animal species.
