

Editorial Note for Regular Issue: Journal of Bioanalysis & Biomedicine (ISSN: 1948-593X)

Limin Chen*

University of Toronto, Canada

Hilaris

Journal of Bioanalysis and Biomedicine has been begun in the year 2009 and it released its first volume in the same year. Till now, the journal has released 11 volumes before the completion of 2019 and is viably running its 12th Volume.

Journal of Bioanalysis & Biomedicine has risen as a significant discipline of science which is multidisciplinary in nature. Various subjects such as different Pharmacotherapy, Negative consequences of Biomedicine, Molecular Epidemiology, Nanomedicine, Drug Development, Toxicology, Biomarkers in toxicology, Spectroscopic and Chromatographic strategies, etc.

Journal of Bioanalysis & Biomedicine is the best open access journal that expects to publish commonly complete and reliable source of information on the disclosures and advanced in this field as original articles, review articles and short communications, etc and furnish free online access to it without any constraints or some different participations to researchers around the globe.

JBABM peer reviewed journal is capably upheld by universally prominent Editorial Board members. JBABM go through a single blind peer review process by competent Editorial Board in order to ensure excellence.

Classification of the Journal

- Anthropology Biomedicine
- Applied Biomedicine
- Bioanalysis Methods
- Biomedicine and Pharmacotherapy
- Chromatographic Techniques
- Mass Spectroscopy
- Molecular Epidemiology
- Sports Biomedicine

The classification extends out to the previously mentioned and its related subjects too.

During the year 2019, the Journal has released nearly 10 articles.

Some of the articles released in 2019 are as per the following:

1. Knowledge, Attitude and Practice towards Surgical Antimicrobial Prophylaxis among Medical Staffs in Surgery Department of Jimma University Medical Center: Ethiopia.

Received 06 October 2020; **Accepted** 10 October 2020; **Published** 17 October 2020

2. Prevalence of Self-medication and its Associated Factors among Pregnant Women Attending Antenatal Care at Nekemte Referral Hospital, Oromia Regional State, West Ethiopia.
3. Antidiabetic and Antioxidant Activity of *Rubus apetalus* Poir. and *Rubus steudneri* Schweinf. Leaf Extract on Alloxan Induced Diabetes Mellitus.
4. Prolong Administration of Methanolic Whole Fruit Extract of *Lagenaria breviflora* (Benth.) Roberty Provoke Oxidative Stress and Kidney Dysfunction in Male Wistar Rats.
5. UPLC Method for Simultaneous Estimation of Ledipasvir and Sofosbuvir in Bulk and Dosage Forms and Their Stress Degradation Studies.
6. Multifunctional Bioceramic Scaffolds for Tumor Therapy and Bone Tissue Engineering.

Similarly, the Journal hopes to cover all the above classification topics for the year 2020 alongside the current examination in this field alongside the current situation prevailing in all around the world i.e., COVID19.

Social media/digital marketing

The journal reliably was in contact with the scientific group of the world through its mails, social media systems and its advanced stages. Unquestionably the best ways to approach with is in contact with the crowds are:

- Twitter postings: Regularly posting the articles, patterns, updates of the journal. They can be visible at: <https://twitter.com/bioanalysisbmed>
- Posting Google Analytics data in the website.
- Using LinkedIn and Facebook for regular updates.
- Consistently being in contact through mails as well as through Whats App.

The complete details about the journal can be seen at: Journal of Bioanalysis & Biomedicine

Lastly, Journal of Bioanalysis & Biomedicine Journal is nothing without the continuous support of the Editorial Board Members especially our Editorial Board members are the back bone of the journal.

Authors and reviewers expect a tremendous function in building this journal. Subsequently, as an Editorial Co-ordinator I invite all the comprehensive dignitaries in this field to introduce their articles for bringing this investigation/capacity to the overall academic network.

Editor-in-Chief

Alexey Goltsov

Professor

School of Contemporary Sciences,
University of Abertay, UK

Carl K Edwards

Professor

University of Sichuan, P.R. China

Editors**Yoshiaki Kikuchi***Professor*

Department of Frontier Health Science,
Graduate School of Tokyo Metropolitan University, Japan

Bolin Geng*Principal Scientist*

Merrimack Pharmaceuticals Inc.,
Massachusetts, USA

Reviewers**Navid Ghassemi**

Department of Computer Engineering
Ferdowsi University of Mashhad, Iran
