

Editorial Note for Special Issue on Molecular and Genetic Aspects of COVID-19

Jiang SW*

Professor, Mercer University School of Medicine, USA

Editorial Note

The Journal of Molecular and Genetic medicine seeks proposals for creating special issues that target specific topics of interest which have high significance to current research in all related fields of medical sciences.

Special issues are to create collections of papers on specific topics. The main aim is to build a community of authors and readers to discuss the latest research and develop new ideas and research directions. The Special Issues are led by Guest Editors who are experts in the subject and oversee the editorial process for papers. Papers published in a Special Issue will be collected together on a dedicated page of the journal website.

Special issues usually attract more attention than regular issues. The articles are often read more and highly cited. Special issues can also be good for the discipline, drawing attention to a particular topic.

Ideas for new special issues may come from a variety of sources. They may arise from editorial board meetings, come from someone in the field, or be solicited with a call for proposals.

Journal of Molecular and Genetic medicine is an Open Access journal peer reviewed publishing high quality research with speed and efficiency. This journal is using Editorial Tracking System for quality online manuscript

submission, review and tracking article status. Authors pay Article Publication Charge once it gets acceptance after peer review process with at least two independent reviewer's approval followed by the editor's approval and their papers are published under a Creative Commons license. With Creative Commons licenses, the author retains copyright and the public is allowed to reuse the content.

All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Google Scholar, Cite Factor, Sherpa Romeo, Genamics JournalSeek, Academic Keys CiteFactor, Ulrich's Periodicals Directory, Electronic Journals Library RefSeek, Hamdard University, EBSCO A-Z, Directory of Abstract Indexing for Journals, OCLCWorldCat, Proquest Summons, ROAD, Virtual Library of Biology (vifabio), Publons Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed.

I am very much delighted to inform that, regular issues of volume 15 are publishing online well within the prescribed time in this 2021 year. I would like to congratulate all the authors, reviewers, the publisher, the advisory and the editorial board of Journal of Molecular and Genetic Medicine for their immense support and we look forward to bring out special issue on Molecular and Genetic Aspects of COVID-19 by the end of March month in scheduled time.
