Editor's Note

We are aware of the difficulties that a large number of you face during this emergency. We will stay steady and adaptable, which may influence singular paper preparing times (more underneath). We are likewise cautiously checking the wellbeing and prosperity of our researchers, overseeing and organizing remaining tasks at hand, and supporting each other with adaptability. While the circumstance is a long way from ordinary in our essential areas, now we don't foresee issues forestalling the proficient distributing of our Journal. We are encouraging the brief assessment of any papers identified with the environmental sciences coming about pandemic, and every single other paper are additionally being taken care of according to our standard procedures.

We perceive the tough situations that everybody is looking during this COVID-19 emergency, yet we might want to guarantee you that we are putting forth a valiant effort with the goal that you experience less disturbance as far as the pace and nature of the survey procedure.

What's more, should you face any issue in finishing your paper modification on due time, if it's not too much trouble contact the Editor clarifying the circumstance, and we will put forth a valiant effort to support you.

Journal is resolved to distribute state-of-the-art, high caliber and unique exploration papers close by applicable and shrewd surveys and short interchanges, wherein the last tries to be lively, captivating and effectively open, at the same time compulsory and testing. On a more splendid note the diary discharges five issues for every volume and each issue comprises of five shifted papers adding hypothetical and methodological exploration

papers, empowering basic survey papers and taught short correspondences. A wide range of papers are exposed to single-blinded friend survey process. JEH was built up with a dream of supporting and advancing examination in Environmental Issues from over the world. We are hoping to extend our board of analysts and article board from over the different sub specialities inside the examination region.

As far as Digital Marketing our diary holds best viewership contrasted with different stages, Google Analytics has uncovered an astonishing measurements in regards to the prominence of this diary. All through Feb 2019-Nov 2019 there were 1000+ site hits. The all out quantities of returning guests were 500. Besides, all around 5,600+ new clients have gotten to the diary site for data on the diary and the distributed articles, The advancement of the individual writer commitments is dealt with and consequently the writers appreciate the notoriety among worldwide crowd. Journal esteems the commitments by the creators and takes satisfactory measures in engendering and advancing their results by forever filing too.

We might want to illuminate you that we will quick track the audit procedure of your paper. We accept that such exploration requires quick consideration and distribution (given that papers fulfill the quality guidelines), since sharing this information we have with our associates, our understudies, our associations, our industry or our legislatures is something we would all be able to do to move beyond this emergency.
