

Past Conference Report of Environmental Chemistry and Engineering Conference

Alireza Heidari

Director, BioSpectroscopy Core Research Laboratory, Faculty of Chemistry, California South University (CSU), Irvine, California, USA & President, American International Standards Institute (AISI), Irvine, California, USA; E-mail: scholar.researcher.scientist@gmail.com

Conference Series llc LTD organized **15th International Conference on Environmental Chemistry and Engineering** August 15-16, 2019 at Rome, Italy that got brilliant response. Eminent Scientists, researchers, business professionals and scholar students were participated during this prestigious conference. With the support and steerage of Organizing Committee Members, Editorial Board Members and amaze displays of all participants this outstanding summit became additional spectacular. The theme of the conference “*Environmental Chemistry is the link between Human Mankind and Nature*” was dilated across the world by speeches from the participants and with boost of media partners and collaborators.

The conference was marked with the presence of far-famed scientists, proficient researchers, students and delegates representing from different countries ultimately driving the event into the trail of success.

Environmental Chemistry 2019 **Organizing Committee** would like to thank the Moderator of the conference **Liang shi**, **Environmental Chemistry is the link between Human Mankind and Nature**, chair and co-chair of the conference and all other attendees who contributed a lot for the smooth functioning of the event.

Conference Series llc LTD would like to convey a great appreciation to following honourable guests and Keynote speakers

- Norov Andrey M , JSC “The Research Institute for Fertilizers and Insecto-Fungicides Named After Professor Y. Samoilov” (JSC “NIUIF”), Russia
- Ge Wang, University of Science and Technology, China
- Xolile G Nciphha, South African Weather Service, South Africa
- Chaofan Zheng, Chongqing University, China

Conference Series llc LTD has taken the privilege of felicitating Environmental Chemistry 2019 Organizing Committee, **Editorial Board Members**, Honourable guests and Keynote Speakers who supported for the success of this event. With property excitement for grand success of this outstanding conference it's glad to announce next annual meeting **21st International Conference on Environmental Chemistry and Engineering** to be control throughout August 19, 20, 2020 at Paris, France. With the theme “*Recent Innovations and*

Research on Upcoming Environmental Issues”.

21st International Conference on Environmental Chemistry and Engineering August 19, 20 2020 at Paris, France
