

## Young Research Forum-Microbiology Infection

Jack Evans\*

Department of Microbiology, Lomonosov Moscow State University, Moscow, Russia, E-mail: Evans\_jack@gmail.com

Conference Series LLC LTD is organizing “[World Congress on Microbiology and Rare Infectious Diseases](#)” which is going to be held in the month of June 25-26, 2021 in Osaka, Japan. The Theme of the conference is “[Latest advances in field of microbiology and rare infections](#)”. The conference offers Prestigious Award for Young Research’s at Microbiology-Infection-2021-Gathering the New-born Advances in Microbiology and Rare Infections.

This Microbiology-Infection-2021 is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of research and innovations. The core of our Young Research Forum-Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform. We at Microbiology-Infection-2021 provide the best networking experience to the participant for their overall professional growth and to promote the collaborative research.

[Microbiology-Infection-2021 Conference](#) will be an investigation of new research Innovation in the field of Pathology and spread the most recent advancements in disease prevention and Laboratory Medicine. Discussion on new technology advancement in the field of Microbiology and Rare Infections and more. Detecting disease and other conditions, involves a team of healthcare professionals, of which the Microbiology technologist is a key player. The market is mainly driven by the increasing research funding for Microbiology from governments and private investors, growing demand for Microbiology and Rare Infections in the U.S. and Europe, and the increasing need for toxicology testing.

Encounter the target market with members from across the globe, committed to learn about novel technologies and innovations in Microbiology and Rare Infections. This is the best opportunity to outreach the largest gathering of participants from around the world. Conduct presentations, distribute and update knowledge about the advancements in Microbiology and Rare Infections and in different fields of Microbiology by receiving name recognition at this 2-days event. World-eminent speakers, most recent researches, latest treatment techniques and the advanced updates in Pathology are the principal features of this conference.

### Past Conference Report

Conference Series LLC successfully hosted its premier 2nd International Conference on Clinical Microbiology, Virology and Infectious Disease during November 11-12, 2019 which was held at Renaissance polat Istanbul hotel, Istanbul, Turkey.

The Conference brought together a great success, where eminent keynote speakers from various reputed institutions and organizations with their resplendent presence addressed the gathering and was marked with the presence of the committee members, senior scientists, young and brilliant researchers, business delegates and talented students from various countries, who made this conference successful and productive.

The conference was greeted by the keynote Speaker Ahmet Kati, University of Health sciences, Turkey and Tony Velkov, University of Melbourne, Australia energized by keynote presentations.

### Eligibility Criteria for Young Scientist Awards: Microbiology-Infection-2021

The Microbiology-Infection-2021: Young Scientist Awards: is for all young Researchers, Research Scholars (Preferably PhD, Post Doc, and Post Graduates & Graduates) who has involved themselves into the R&D sector. The candidates should have minimum 3+ years of research experience and published minimum 3 research articles in international journals. Part time researchers can be considered subject to recommended by the research guide or any director level designated person from the organization.

Applications are invited on first come first serve basis. Only 25 nominations will be accepted globally.

### Judging Criteria

Nominated candidates need to present their research or talk for 25-30 minutes in front of the panel members. Subject should be under the scope of the Microbiology-Infection-2021 conference. Selection will be on the basis of individual accomplishments, quality & standards of research, noble thought, research methodology, innovative ideas, style of presentation, significance of the contribution to the field, originality, clarity, and future extended scope of the research and probability of bringing the research in terms of products/services into public domain.

### Nomination

We invite online applications from desired candidates, self-nomination or nominated by organizations (both private & public sectors)/research guides. The student must be the first author & the student’s advisor should attach a statement that their contribution is primarily advisory.
