Dear Sir/Madam,

I strongly recommend The Journal of Human Genetics & Embryology to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. As a guest editor, I have many opportunities to handle outstanding manuscripts in the journal, and our publications significantly contributed to the field of human genetics and embryology.

Therefore, I enthusiastically support the Journal of Human Genetics & Embryology to be indexed in PubMed without any hesitation. Please feel free to contact me should you need any additional information.

With Regards,

Bing Yao, Ph.D.
