To: PubMed Review Committee:

As a current or former member of the editorial board of several international journals including Journal of Biomedical Science, Neurochemistry International, Journal of Bioengineering and Biomedical Science, Peer Journal, and World Journal of Methodology, I strongly recommend to have Journal of Bioengineering and Biomedical Science to be indexed by PubMed. This is based on the quality of the papers now published in this journal and a distinguished group of experts to serve on the editorial board to guide the journal. We are looking forward to your positive response to this request. Thanks.

Sincerely Yours,
